Prof. Asa Gray
Dear Sir

Since the Botanical
series have come into our hands
we have occasional inquiries
for your "Genera of Plants" and
are unable to offer them. Putnam
had a few copies that were sold
at auction in the closing of his
stock, and we are informed
that you have the remainder
of the edition. What can we
say to inquirers about the
Genera and any other of your
Botanical works not pub-
lished by us. The Botani-
cal series are beginning to be called
for in all directions. We have
now Amherst College & Dartmouth
N. H. in tow and will carry them
in place of Wood. Yours truly
J. O. S. Skinner
